

# Your family

140 countries

175 chapters

80 active research projects

104 technical committees

119 standards and guidelines

More than 53,000 members

All building greater  
membership value

**FOR YOU.**

## ASHRAE

# Connect with ASHRAE

**ASHRAE represents the  
industry's leading HVAC&R  
professionals, working  
together to make the  
world a better  
place to live.**

# Your world

By 2050, the world's population is expected  
to increase 35%, reaching 9 billion people.  
Now, more than ever, built environment  
professionals are heroes on the frontline  
in making our planet a better, more  
efficient place to live, and ASHRAE is the  
organization supporting this global effort.

## Priceless Connections

ASHRAE membership instantly connects you to over 53,000 colleagues throughout the world. Our members come together at the local, regional, and Society levels, both in-person and online.

### Chapter Participation

Members come together for meetings, professional development opportunities, social events, and more. Annual Chapter Regional Conferences (CRC) offer members the chance to network, meet Board members, attend seminars, and enjoy social events.

### Society Meetings and Conferences

The Society's Annual Conference and Winter Conference & AHR Expo both offer excellent networking opportunities, short courses, technical sessions, technical committee meetings, and discussions on leading topics in the HVAC&R industry. Specialty conferences on specific topics are also held throughout the year.

### ASHRAExChange

The ASHRAExChange brings together members from across the world to create an online discussion platform. Topics include design, construction, operation, and support of the built environment.

### Young Engineers in ASHRAE (YEA)

Dedicated events and resources for young professionals are offered at the chapter and Society level through the Young Engineers in ASHRAE (YEA) program.

## Empowering Education

ASHRAE members are lifelong learners, and have endless resources to help accelerate their career through both personal and professional development.

### ASHRAE Certification

ASHRAE Certification programs are developed by industry professionals who understand what is expected for superior building design and system operation. Professional Certifications include:

- Healthcare Facility Design
- High-Performance Building Design
- Operations & Performance Management
- Commissioning Process Management
- Building Energy Modeling
- Building Energy Assessment

### ASHRAE Learning Institute (ALI)

ALI seminars and courses provide high-quality, authoritative and credible training backed by real world applications. Courses are flexible and offered in a variety of formats for your convenience and learning style.

## Powerful Resources

ASHRAE members benefit from access to, and discounts on, over 15,000 publications and papers in the ASHRAE bookstore. The wide range of publications is something no engineer or building design professional should be without.

- *ASHRAE Handbook* – a four volume series covering Fundamentals, HVAC Systems & Equipment, HVAC Applications, and Refrigeration.
- ASHRAE Standards provide the information you need to ensure your project is designed according to the latest requirements.
- *ASHRAE Journal* – a monthly magazine of outstanding peer-reviewed industry articles.
- *High Performing Buildings* – a quarterly magazine featuring case studies of today's efficient buildings.
- *Advanced Energy Design Guides* – written to achieve 30-50 percent higher energy savings than levels set in Standard 90.1-1999 or 90.1-2004 respectively.
- Topical publications and tools such as:
  - Design Guide for Hospitals and Clinics
  - Design Guide for Hot and Humid Climates
  - ASHRAE Datacom Series
  - ASHRAE Green Guide
  - User Manuals for Standards
  - Air-Conditioning System Design Manual
  - ASHRAE Duct Fitting Guide
  - ASHRAE Thermal Comfort Tool CD

## Compelling Opportunities

Through dedication to research and participation on technical committees, ASHRAE members are shaping the built environment, and changing the world we live in.

### Standards and Technical Committees

You can play a role in shaping the evolution of building technology and industrial application through service on a technical or standards committee. ASHRAE technical committees, task groups, and technical resource groups serve as the Society's technical foundation.

ASHRAE standards and guidelines continue to affect public policy in the areas of energy efficiency, safety, security, and public health. ASHRAE members are involved in all facets of the industry to improve HVAC&R and ultimately make the world a cleaner, safer, and more efficient place to live.

### ASHRAE Research

We currently have approximately 60 active research projects. Since 1960 we have funded 845 research projects with a combined value of \$67 million (not adjusted for inflation). The final reports for these projects are free to members on ASHRAE.org.
